

MODE MACHINES CM-1 CAMERAMIC

The CM-1 Cameramic of the German manufacturer MODE MACHINES is 23 cm long and weighs only 190 grams. The housing is made of sturdy plastic. The receiving unit is made of black aluminum and with the product color it fits perfectly into the Mode Machines assortment. One AA battery is for commissioning and daily use required (included). The microphone is connected through a mini jack plug to the desired camera. A high-quality windshield is also included. If you look for an easy to use, lightweight Cameramic for a camera or camcorder, which is also equipped with an easy swing mounting, the CM-1 Cameramic from MODE MACHINES can be your new and reliable companion.
